Dear international students,

We are pleased to update you that **effective 1<sup>st</sup> November 2021**, international students with a **valid student pass** are permitted by the Immigration Department to enter Malaysia without applying for the Travel Authorisation via EMGS. Kindly ensure that the student pass is valid on the date and point of entry into Malaysia.

However, students who fall under any of the categories listed below are still **required** to obtain the **Travel Authorisation** via EMGS:

#### **1) *Student Pass expired from February 2020***

If your student pass has expired from February 2020, you will need to apply for Travel Authorisation via EMGS website. Once this has been approved you will be allowed to enter Malaysia.

## **2) *New International Student***

There are no changes to procedures to enter Malaysia for New International Students.

All new international students (*including students who have commenced studies online but have never travelled to Malaysia to attend face-to-face classes on campus*) will be receiving an auto-generated EMGS Travel Authorisation Letter along with the issuance of the E-Visa Approval Letter (eVAL). Once approved, both these documents will be available for download from the EMGS website. Please ensure that both the EMGS Travel Authorisation Letter and E-Visa Approval Letter (eVAL) are valid on the date and point of entry into Malaysia.

All international students are subjected to the entrance procedures upon arrival as per the existing Malaysia Immigration Department regulations and undergo the mandatory health screenings and quarantine procedures by the Ministry of Health Malaysia.
